

# How Working in Hospital Look Like in The Next Decade

1 July 2026 · Nikon Sugar

We are living in a world that things evolve at high speed and it is hard to catch up with new technology everyday.

## Overview

We are living in a world that things evolve at spinning pace and I feel hard to catch up with technology progress that human being is making now (1).

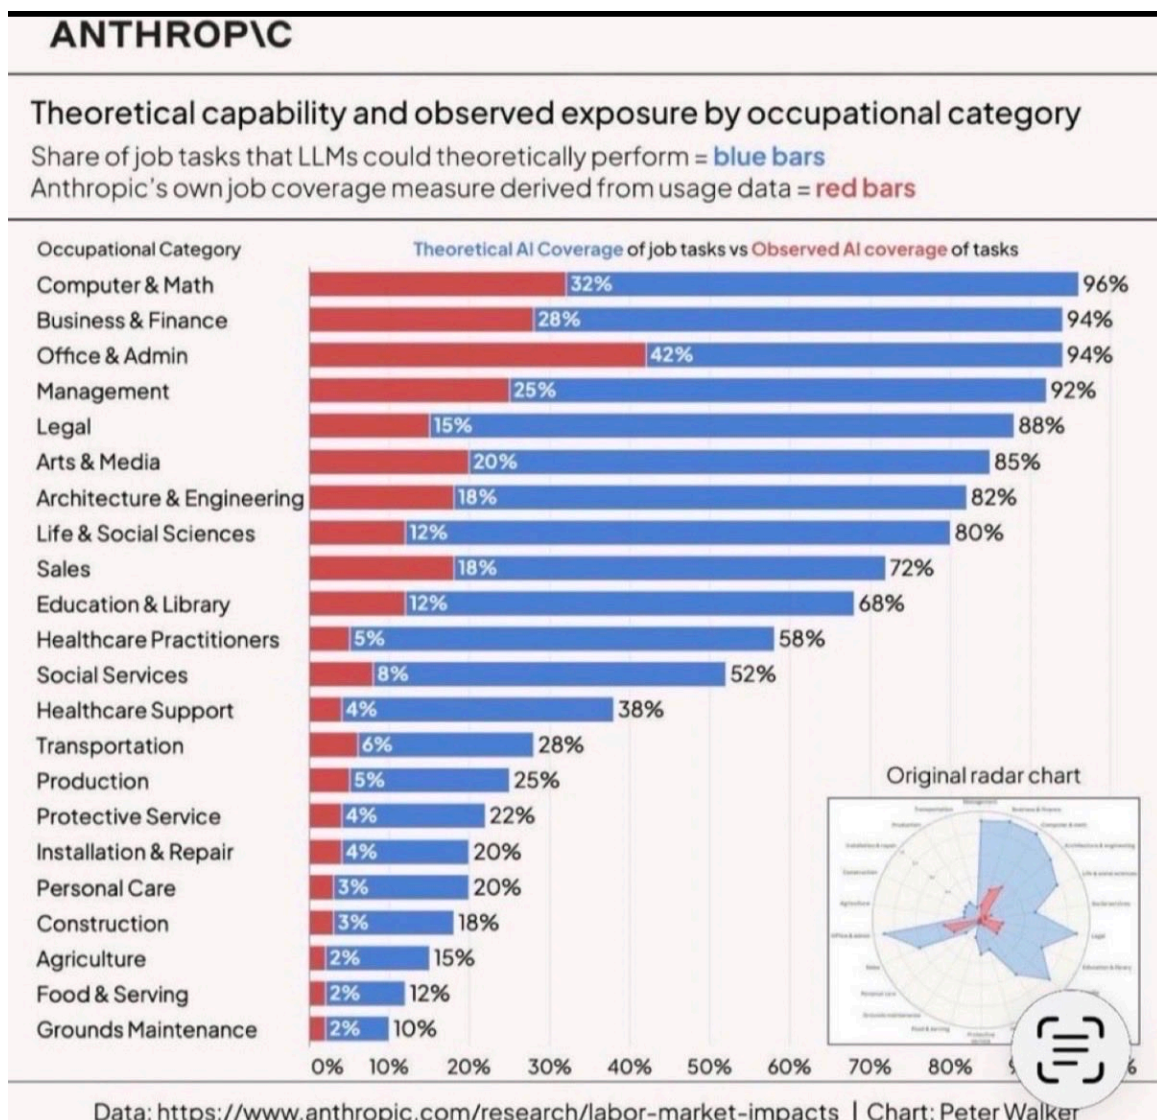

Figure 1. anthropic-job-AI-coverage

Anthropic and OpenAI are the most two companies who provide the most tokens to the market and recently Anthropic has published the current and expected coverage of human being tasks by LLM
